Dear Glyn,

Having now purchased two fully automatic sleeve wrappers from you in quick succession we would like to take this opportunity to express our satisfaction with YPS throughout the whole process.

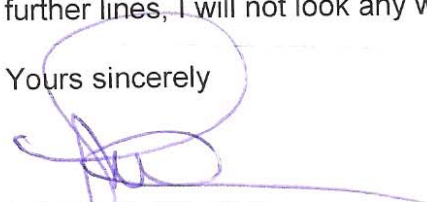

We contacted you through your web site and received a very prompt reply and subsequent site visit so you could be sure what we needed.

You are the only company I have come across who actually supplied references to support your claims of superior after sales backup and support. I would also wholeheartedly endorse this fact as you quite happily changed the plc program of the first machine so it worked better with our process.

Indeed so happy were we with the fact that you lent us a machine to cover the lead time, that we decided to keep the loan machine from you.

The equipment is running as it should be and so I have no hesitation in recommending Yorkshire Packaging Systems Ltd. in the future and as we require further lines, I will not look any where else.

Yours sincerely

GORDON WILSON
Managing Director
