## THE ROCHMAN CONTINUOUS SIDE SEALER SMAF 4020

The year 2006 has represented a take off for our continuous side sealer model SMAF. You will find next comments about particular key customers, some of them repeating orders of this model.

Since 1991, **The Print Factory** has been dedicated to providing world-class printing and management services at market-leading prices, to clients of all sizes, commercial and non commercial, from all industries throughout the UK and Europe.

**TPF Group** – the UK's fastest-growing print business. Full colour digital printing, sheet, leaflet and web printing, repro and finishing, direct and transactional mail, storage and distribution solutions, marketing creative services

**Yorkshire Packaging Systems and Rochman** has been selected to supply the **second SMAF 4020** to give way to their production. According to the specifications from YPS we have incorporated to the machines the following elements to optimize the production:

- Split in feed belt for vertical pack detection.
- Touch screen control panel.
- High grip in feed belt because of the light weight of the product.
- Kissing conveyor for small packs
- Reverse action on high packs for out feed belt, to reduce then tension on the high packs.
- Height adjustable horizontal sensor.

## ODS Optical Disc Service.

ODS Optical Disc Service GmbH started in Dassow, Germany in 1997 and is now the largest manufacturer of Optical Discs in Europe.

ODS have the largest daily CD capacity in Europe with capacity of 1.7m CDs per day and currently the third largest DVD capacity in Europe of 1.25m DVDs per day.

ODS have rapidly expanded their business and operate in over 10 different European countries including the UK. They have gone from employing just 40 staff in 1998 to over 2,000 in 2006.

ODS focus on 4 main Customer Groups and offer special services and experienced staff for each: Print Publishers, Music and Movie Distributors, Corporates / Brokers and Agencies Internet Service Providers

ODS has the daily capacity to produce 1.7 million CDs and 1.25m DVDs a day; currently combined this is the largest in Europe. In some cases only access to this capacity can help when a Newspaper needs 5 million DVD's in 2 weeks or when a Movie Distributor has just 4 days to turn an order around! ODS can automatically package in house 1.5 million discs a day into wallets/sleeves, 800,000 into Jewel Boxes and 300,000 into DVD Boxes. Our packaging operation is now one of the largest in the World of this kind.

This strategic customer trusted in **Yorkshire Packaging Systems and ROCHMAN** for the supply to their site of Swindon (England) of the **second line** of **SMAF 4020** including a versatile **feeder of CD's and DVD'S**.

One **SMAF 4020** to wrap with **POLYETHYLENE** and furnished with Siemens PLC and the corresponding shrink tunnel has been recently supplied to **ELECTROLUX** in Madrid to wrap certain components of their equipments.

In this field of application, **SMAF 4020** working with **POLYETHYLENE**, we cannot forget our customer in San Ginés (Murcia) Spain, **Rufete S.A.** This customer is one of the spanish leading companies for the do-it-yourself market. They offer all kind of solutions in wooden profiles. Rufete is already working for more than two years with **two SMAF 4020 and Shrink Tunnels TR 45X250 H300.**

Along with the sealing machines we supplied to them conveying lines and stretch wrapping machines with turn tables of 3 metres. Rufete wraps their wooden profiles with **300 gauge / 75 microns PE film.**
